

Jack Palmer

Toronto, ON | jackcpalmer@gmail.com | linkedin.com/in/jackcpalmer | github.com/JCPenne

TECHNICAL SKILLS

Core Tools: Javascript, HTML, CSS, React, Git, Figma

Familiar With: Typescript, SQL, NodeJS, ExpressJS, Jest, MUI

Exposed To: AWS, Docker, NextJS, Ruby, Rails, Redux, PostgreSQL, Storybook, Cypress, Jest, Mocha

EXPERIENCE

Junior Developer (Front End)

Dec 2022 - Feb 2023

Vente A Canada, ([Link to Project](#)) - Javascript, React, Typescript, HTML, CSS, AWS, Docker

Remote

- Implemented 10+ front end messaging features including localized timestamps, URL parsing, emoji support, modals and drawers, leveraging React Router for page routing. Improving chat accessibility by doubling the QoL features for users.
- Responsible for server support during a live event. Stayed in frequent contact with the client and provided updates on site health. Utilized AWS and Google analytics to ensure server load was sustainable, Docker containers were healthy and tracked site traffic metrics. Responsible for redeploying of site in the event of a crash.
- Reformatted existing front end architecture, removing 16,000+ lines of redundant data, reducing bundle size by more than 25%, resulting in improved responsiveness and performance metrics of over 20%.
- Handpicked by instructor from a pool of 50+ graduates to collaborate on the front end tickets written in Typescript and React.

Project Coordinator & Systems Automation

Sep 2019 - Jan 2022

TLG Millwerks Ltd

Vancouver, BC

- Created TLG Millwerks Ltd first project management system using Airtable including a 10,000+ item / \$100,000+ inventory, current and historical data for 100+ projects with an annual \$1.5m pipeline, a CRM for 50+ clients and vendors, and Gantt chart scheduling for a 10+ person team.
- Proactively sought system automation opportunities across multiple departments. Automated Gantt charts, project scheduling, material tracking and workflow automation via Slack API integration, reducing meetings and synchronous interaction by 10+ hours a week.
- Saw the potential to create more robust logic flows for the company while developing automation strategies and began learning Javascript asynchronously. This opened the door to a career in Software Engineering.
- A key member of business strategy meetings with senior management, collaborated on short and medium term goals such as team structure, project prioritization, customer communication and negotiation, annual schedule capacity.
- Responsible for junior project management duties of 10+ projects ranging from \$50-100,000+ / 8-16+ weeks in scope. Acted as the main point of contact between customers, homeowners, contractors, site foreman and internal teams.

PROJECTS

CareerSquared - Javascript, React, HTML, CSS3, SQL, NodeJS, ExpressJS

Dec 2022

- Responsible for over 50% of the project's code, written in Javascript and React.
- Took on the leadership role for a team of three junior developers providing code reviews, explaining difficult concepts, teaching new ones as well as emotional support. This allowed us to remain productive through a time of high stress and bond as a team.
- Prioritized and communicated the need for adequate planning, structure and the use of tools such as Trello and Figma enabling CareerSquared to be completed ahead of schedule.

EDUCATION

Josh Comeau's CSS for JS

A comprehensive CSS course for Javascript Developers.

Current

Josh Comeau's Joy of React

A robust React course that teaches how to build rich, accessible and dynamic web apps.

Feb 2023 - May 2023
